

2012 - Approved Public Lighting Services - Fee Based

The public lighting services fees are for the operation, maintenance, repair and replacement (OMR) of public lights in accordance with the Public Lighting Code. The charges are for lights with or without standard fittings.

The following charges have been approved by the Australian Energy Regulator dated the 13 December 2011. These Public Lighting Service Fees apply unless an alternative charge has been agreed with the public lighting customer. The approved charges apply from the 1 January 2012.

Note: (a) Where a public lighting customer requires a lighting pole to be powder coated, the incremental cost of the powder coating will be negotiated with the customer. Any disputes in relation to the incremental cost of powder coating should be resolved in accordance with the Public Lighting Code.

Commercial Public Lighting Charges

The T5 2*24W, compact fluorescent (CF) 32W and 42W tariffs do not have AER approved OMR charges. Accordingly, United Energy agrees to allow the installation of these light types on the UED network subject to a public lighting customer entering into a contract. Commercial OMR charges will apply until such time as an AER approved OMR charge is issued. The commercial charges below apply from 1 January 2012.

Energy Efficient Light Type	Commercial Tariff \$ p.a.	Commercial Tariff \$ p.a.
