Dear Rodney,

**RE: Lower Mornington Peninsula Regulatory Investment Test**

Thank you for the opportunity to provide a competitive non-network submission for United Energy's regulatory investment test.

GreenSync has made significant improvements to its proposed solution. This has been driven by advancements in technology and the energy market place, a comprehensive understanding of the lower Mornington peninsula and improvements made in GreenSync's customer and strategic partnerships. These have enabled more reliable curtailment and storage resources to be enrolled in GreenSync's demand management portfolio solution.

GreenSync looks forward to working with United Energy to deliver this exciting, market-leading project and commends the submission to you.

Yours sincerely
